

SITE SELECTION AND DEVELOPMENT

The Board of Education believes that a school site should serve the district's educational needs in accordance with the district's master plan as well as show potential for contributing to other community needs.

(cf. 7110 - Facilities Master Plan)

The Board recognizes the importance of community input in the site selection process. To this end, the Board will solicit community input whenever a school site is to be selected and shall provide public notice and hold public hearings in accordance with law.

(cf. 1220 - Citizen Advisory Committees)

(cf. 9320 - Meetings and Notices)

The Superintendent, Chief Facilities Planning and Construction, or designee shall establish a site selection process which complies with law and ensures that the best possible sites are acquired and developed in a cost-effective manner.

(cf. 7140 - Architectural and Engineering Services)

(cf. 7210 - Facilities Financing)

Before acquiring property for a new school or an addition to an existing school site, the Board shall evaluate the property at a public hearing using state site selection standards. (Education Code 17211)

Environmental Impact Investigation for the Site Selection Process

The Superintendent, Chief Facilities Planning and Construction, or designee shall determine whether any proposed development project is subject to the requirements of the California Environmental Quality Act (CEQA) and shall ensure compliance with this Act whenever so required. When evaluating district projects, the CEQA guidelines shall be used.
